Quantum Yin Yang Symbol was designed by John Lawrence King from a photograph

The Quantum Yin Yang Symbol is representative of the Quantum Equilibrium of the polarities!

This belief system is also suitable for the devil babies of Europe and other countries

Advanced Gaia and the Atmospheric Barometer - Gluon Isospin + Gluon kinetics affect the rate of quantum entanglement that indirectly affects the velocity of photon-pacts that interchange, red, blue and green - during spiralling cycle of quantum entanglement and tunnelling in the atmosphere combined is an affecter on the Barometer. Seach for : Atmospheric Barometer

All the inventions on this website may be manufactured all I (J.L.King) ask is %2 of the income generated via the product manufacture and/or income generated by the implementation of concepts on theses websites, though there is no obligation it is absolutely Good-Will if you give 2% of the the income generated via the manufacture of products to the *real Aurther/science inventor (John Lawrence King)*, *in order to maintain the websites independently.*

Though fermented fruit and vegetable equivalents in the form of powdered gels + water (in manageable packets) to feed the poor (if the crops fail) if 100.0000 packets of fermented fruit and vegetable powdered gels are produced each day, that would feed a 100.0000 people each day and if the crops fail there would be no famine ever with implementation of industrial microbiological fermentation plants for production; this harmless sevice should be completely free to manufacture in any contrary and the initial investment could be derived from flouting stocks on the stock exchange; just reference to this website for the inventive ideas please.

Most hypothesis on this website is based on the quantum field theory and the pattens in nature:-

Quantum-flip-flops :-

Quantum-flip-flops are when quantum entanglement polarity changes occur, this is achieved by utilising electrons when exchanging "atom-shell" when there is an energy change that has affect upon the quantum entanglement for room-temperature quantum computer CPU and Quantum-data-base-Systems - John Lawrence King 08.04.2026 (also see invention number 33).

Invention number 1: is the Digitised minimised DNA product to make electrophoresis obsolete and give a full DNA profile on the fly via satellite; Suitable for any person(s) that needs to enhance your facial-recognition-data and hold on to your I.D. making it impossible for crooks to take your I.D. ... Appropriate for the Rich.. and poor alike.

Thanking you in advance for manufacturing the inventions, kind regards
